

Amendments to House Bill No. 364
1st Reading Copy

Requested by Representative Nancy Wilson

For the House Transportation Committee

Prepared by Casey Barrs
February 11, 2013 (4:38pm)

1. Title, line 5.

Strike: "A"

Insert: "THE NUMBER OF TIMES A MOTOR VEHICLE HAS BEEN SOLD AS
INDICATED IN THE"

2. Page 1, line 10.

Strike: "information on a "

Insert: "the number of times a motor vehicle has been sold as
indicated in the"

- END -

Figure 1 consists of four line graphs arranged in a 2x2 grid. The top row shows 'Correct responses' and the bottom row shows 'Incorrect responses'. Each graph has 'Trial' (1-5) on the x-axis and 'Percentage' (0-100) on the y-axis. The groups are Control (solid line with circles), MCI (dashed line with squares), AD (dotted line with triangles), and DLB (dash-dot line with diamonds). In the 'Correct responses' graphs, the Control group remains high (around 90-100%), while the other groups show a decline. In the 'Incorrect responses' graphs, the Control group remains low (around 0-10%), while the other groups show an increase, with DLB showing the highest percentage of incorrect responses by trial 5.

Trial	Control (Correct)	MCI (Correct)	AD (Correct)	DLB (Correct)	Control (Incorrect)	MCI (Incorrect)	AD (Incorrect)	DLB (Incorrect)
1	95	85	80	75	5	15	20	25
2	95	80	75	70	5	20	25	30
3	95	75	70	65	5	25	30	35
4	95	70	65	60	5	30	35	40
5	95	65	60	55	5	35	40	45
